

A Gift for You

In the spirit of the holidays, I have put together this little package of goodies that you need to work online. And put your wallet away. There is no cost for anything!

Every year I get emails from people telling me that they are giving me a gift, and it turns out to be a discount on something that they are promoting! That is NOT a gift. A gift is supposed to be free, with no strings attached.

So here we go. First, you should have already heard about Techsmith giving away older versions of Camtasia and SnagIt, with discounts for upgrades, hoping that people will buy their newer software. Now this is a good thing for both parties. You can actually use the free versions forever, but if you see that you like them, and they are increasing your profits, you can upgrade at a reduced price. So I prepared a couple of web sites for you, complete with the links to get the products, and some tutorials to show you how to use them. Do not put this off, because I do not know how long it will last. Go to <http://Camtasia.InfoForYou24-7.com> . You will find a link there to also get you SnagIt and some tutorials for that as well.

Link cloaking has been a problem. Affiliate links are an easy way to have someone else steal your profits. They can easily chop part of the link and steal your commission, or add their own ID to get a reduced price. I have made a cloaker that never shows your affiliate link, and it puts whatever title you want on the targeted site when your customer gets there. Here is an example:

cloaked link: <http://BobWilloughby.com/Likes/WealthyAffiliate>

affiliate link: http://www.wealthyaffiliate.com/?a_aid=1WfyZPju

(depending on your browser, it may look the same, try a different browser. Maybe one link on each browser)

Click on both links and watch for the difference. Also, it is a proven fact that people will click on a cleaner link. The link also makes you look more professional. To use the tool go here:

<http://BobWilloughby.com/Bob'sTopShelfLinkCloaker/> . If you are nervous about using this online, let me know and I will send you one that you can run on your computer. Or if you need any help in using the program, just let me know.
